FROM OUR
Farms to Table

**“Food Service, Retail
and Private Label”**

TurenStone
Quality above all.

www.turenstone.com

**“Not being the largest of our competitors.
Offer premium quality products and a
gourmet experience. Quality above all”**

Turen Stone Corp serves the best fit for the consumer who is looking for the quality, taste, health and tailor made products at the same time.

We are proud of being a supplier of unique tastes from our soils, which produced starting from the seeds, carefully harvested and all-natural products. While harvesting our own vegetables in our fields and creating fresh, high quality and natural products, we also put great effort in supporting our local farmers. For years, we have created father to son family loyalty by harvesting from the same family farms and fields. We support them with the initial investments for each harvesting season.

We carry more than 25 years of experience of manufacturing with all quality certifications and Kosher, and export to 19 countries.

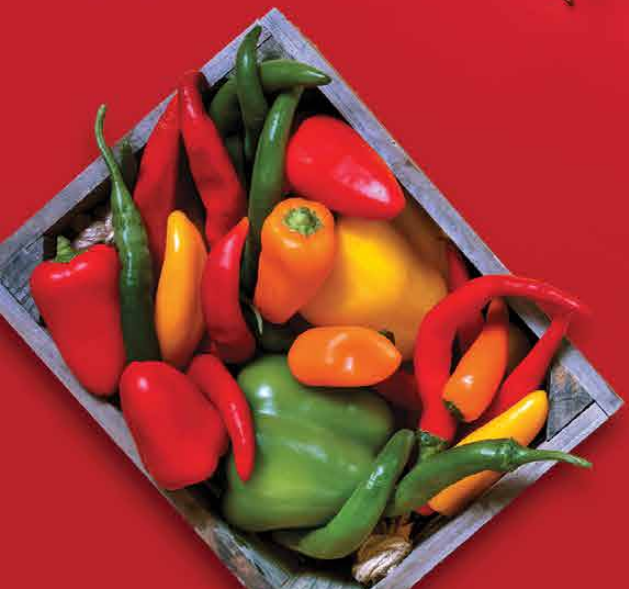

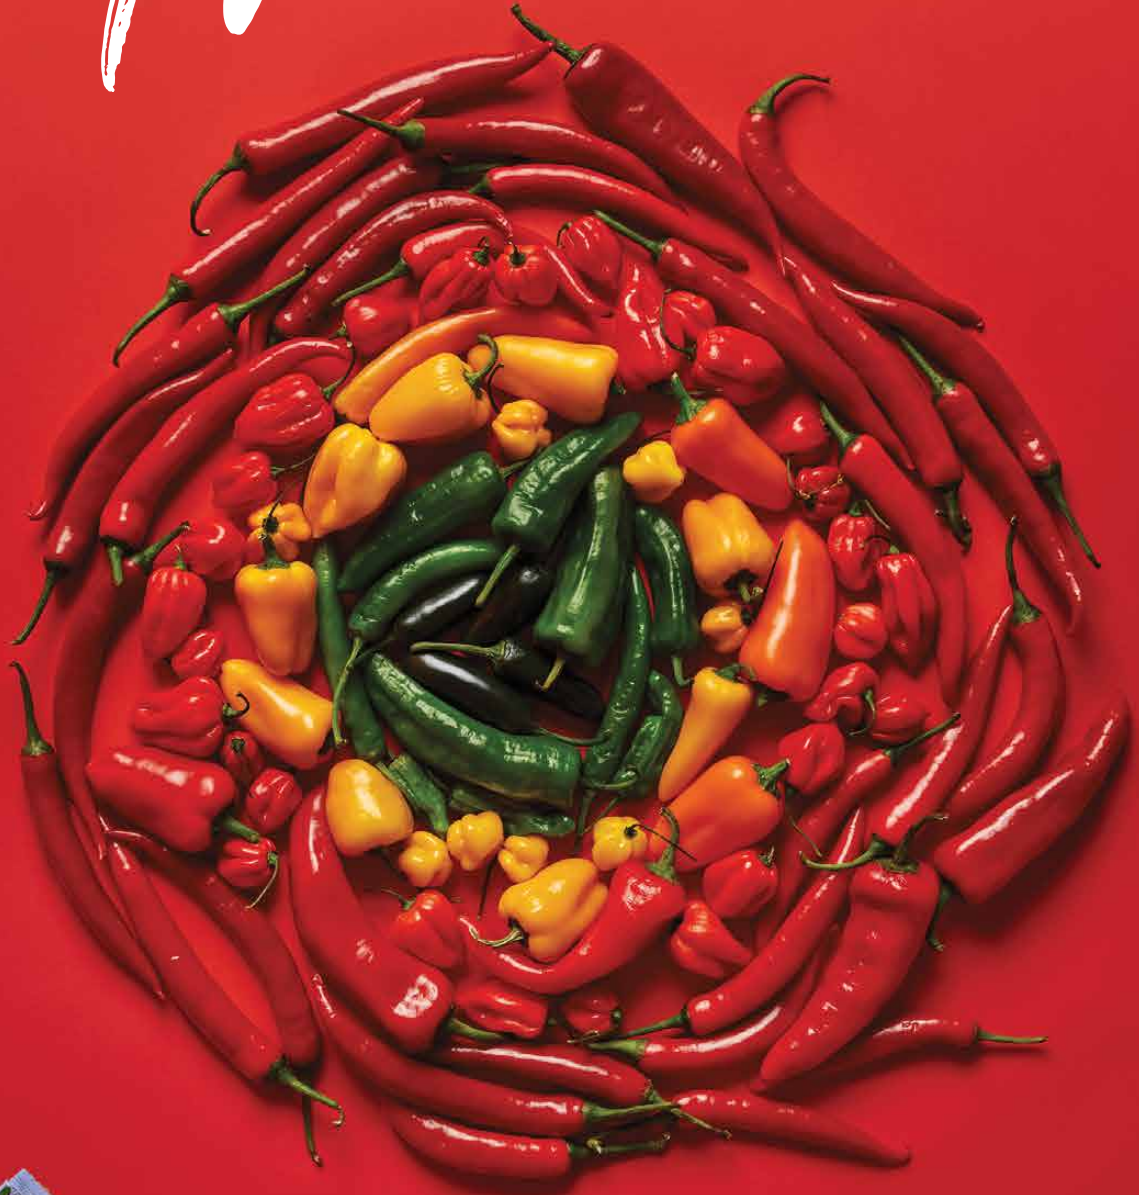

Beside our quality and wide range product portfolio, we are working as a consumer-oriented company, by acting as the unique partner of every consumer.

Similar to other countries, we have strong cooperation with our marketing, sales and distribution partners in the US market. By supporting and working with these cooperating distributors and/or retailers, we deliver our products to the US consumers.
